

ROLE OF SOCIAL PHILOSOPHY IN DEVELOPING CREATIVE THINKING IN CRIME PREVENTION OFFICERS

Beshimov Bakhtiyor Iskandarovich

Independent Researcher, Bukhara State University

Uzbekistan Republic President Sh.M.Mirziyoyev "Social stability provide, sacred of our religion purity conservation - period demand" topic at the convention spoke in his speech "... today in the day especially unorganized in the neighborhood of young people destiny with who are you interested? Children who are with interlocutor going to study when go and when coming who control is doing Young people, especially teenagers between bullying, crimes the number to increase how factors reason is happening Some our youth for Kindness, morality concepts completely they are becoming strangers, they are developing vices such as indifference, irresponsibility, striving to earn a living without working - although it is bitter, it is the truth. Also, in the measures to prevent crimes in the society", prevention inspectors, responsible employees working on juvenile affairs and representatives of the public should work with young people, students and their parents or substitute teenagers. tasks such as "development of educational programs and methodical manuals" were defined, and in this regard, to determine the socio-psychological characteristics of the development of delinquency and criminal motives in teenagers, organizational it requires the effective implementation of scientific research on the content of the measures, as well as the development of scientific and psychological recommendations aimed at educating competent young people and preventing criminal motives.

In our republic, education has a constructive value in revealing the criteria, modern features of divergent-creative thinking of the employees of the internal affairs bodies, the system of its promotion and the socio-philosophical features of the dynamics of development. In particular, PQ-5076 dated April 15, 2021 "Internal affairs organs professional personnel for of preparation quality in terms of new system current reach according to measures on" decisions own expression found.

Shaukat Mirziyoyev in his works internal affairs employees creative-intellectual thinking upgrade necessity about ideas theoretical in terms of relevance shows.

Education internal affairs in employees creative thinking in development important role plays Divergent - creative thinking elements own into received education programs of employees professional powers in formation important role plays Internal affairs in the organs teaching not only traditional methods own into to get, maybe creative thinking and non-standard solutions to search encourage important.

Creative thinking - societies industrial, scientific and technical development revolutions and sharp growth, forward leave during formed and modern in society technical of development new stages human stocks with to get rich service who does unconventional thinking ability and development factors to provide directed thinking is considered.

MODERN EDUCATIONAL SYSTEM AND INNOVATIVE TEACHING SOLUTIONS

Creative thinking internal affairs employees at work important role plays because they are most of the time problems solution in doing to himself special and innovative approaches demand who does non-standard to situations face they come

Internal affairs organ employee own knowledge and experience, creativity ability professional to the activity complete mobile to do, general responsibility, mission, image feeling development, this of the system centralizing power and solidarity in raising intellectual culture separately importance occupation is enough Therefore, dedication, knowledge, wisdom, courage, dedication, thinking methods, behavior, spiritual and moral qualities, vital value and psychological features this system intellectual culture of promotion main direction is considered.

Of education internal affairs in employees creative thinking in formation Mechanisms:

1. Creative thinking encouragement.
2. To the problem directed education.
3. Non-standard situations solution to do according to training.
4. Communication skills development.
5. From technology use.
6. Himself to educate encouragement.

Creative thinking in development modern of education role important Education creative thinking to develop help giving different different teaching methods own into takes, for example, art, literature, music and design according to teaching.
